

## **COVID-19 PATIENT PROCEDURES**

Due to the COVID-19 pandemic, our office procedures have temporarily changed. We may continue to adapt to any new findings or recommendations from the CDC, OSHA, or other relevant regulatory bodies.

When you arrive for your appointment, please stay in your vehicle, and then call our office to let us know that you have arrived. When ready, we will call you to come to office.

You will need to wear a mask or face cover while in the office. We will provide a mask if you do not have one.

If clinically indicated, we will check your temperature with a touchless thermometer. If your temperature is over 100 degrees F, your appointment will be rescheduled. Please do not come to the office if you are sick.

At this time, we are only allowing the patient in the office. Please do not have anyone accompany you into the office. We ask that all others remain in the vehicle. Please do not bring children into the office.

Due to these new procedures, your visit will require more time. Please arrive at least 15 minutes prior to your scheduled appointment.

Thank you for your patience and understanding.
